

With **ProCall Mobile**, the native apps for the iPad, iPhone and Android, users can very easily access selected and proven unified communications and CTI functions from the best-selling ProCall Enterprise, and of course they can do so on mobile devices too.

Key data on business contacts and information about colleague availability means that communication stays efficient at all times, even on the move.

# ProCall Enterprise

Native Apps For iPad, iPhone and Android

## Communicate and Collaborate Better In the Mobile World.

**ProCall Mobile** is a native smartphone and tablet app for the iPad, iPhone and Android with selected unified communications (UC) and CTI functions.

The latest version features a modern design and a thoroughly revised operating concept. At its heart is easy access to ProCall Mobile's tried-and-tested communications options. Functions such as video chat or the integration of Softphone functions (SIP) add significant value to the new app.

As a result, the transition from fixed workstations with ProCall Enterprise on Windows PCs to the mobile application ProCall Mobile is even more fluid.

The combined solution is primarily aimed at small and medium-sized enterprises who, as a result, can offer their staff efficient working and professional communication even while they are on the move

### The key features at a glance:

- Use the office telephone even while on the move
- Rapid access to business contacts and all communications functions
- View last contacts quickly at a glance
- Chat for the fast and secure exchange of messages
- Connection of popular CRM, ERP and industry software. Relevant information is permanently available, ensuring contact details are always up to date.

- Communicate with a more personal touch: audio / video chat
- With Softphone functions: telephony direct from the app based on the Internet technology WebRTC.
- Instant messaging and presence management, even for external business partners thanks to federation
- Always be efficiently organized with a personal call journal
- Cloud-ready - simple commissioning with UCConnect, the cloud platform of the future from estos
