Communication compact with ProCall Business

The most important functions of ProCall Enterprise

Computer Telephony Integration (CTI)
CTI simplifies your day-to-day work steps and reduces sources of error.
The telephone is controlled by the PC.

Softphone Functions (SIP)
The integrated SIP compatible softphone allows employees
to talk directly over the PC. Uncomplicated and safe, even on the move.

Instant Messaging (Chat)
Easily share text messages with colleagues or customers,
or pass on important information quickly and straight away.

Audio/Video Communication (WebRTC)
Based on the internet technology WebRTC (Real Time Communication),
you benefit from easy face-to-face communication regardless of distance.

Screen Sharing
The simple screen sharing allows you to view
and work on documents with your call partner.

Presence Management
View your colleagues' availability at a glance and
choose the appropriate communication method.

MultiDevice
MultiDevice means that ProCall Business is platform-independent and
device-spanning, and also offers native clients for Windows, iOS and Android.
